# How to Convert Word to PDF

Simpo PDF Creator works like a **virtual printer**, so you can **convert Word to PDF** by printing instead of a normal printer. To convert your **doc to pdf** or **docx to pdf**, just in minutes!

## Step 1

- Open the word document which you want to convert to pdf.

## Step 2

- Go to **File->print** (or **Ctrl+P**), and choose Simpo PDF Creator in the browsing windows. In this section, you can set all the properties which a normal printer can achieve. Then, press **OK** button.

## Step 3

- The new window will be launched. In this section, you can choose the directory of your output, set the property of your PDF (password, embedded font, allow print etc), then press **Create PDF**, your file is ready!
